# Academic Centers for Public Health Preparedness (CPHP) Meeting

## CDC Training Update

*November 8, 2002*

*Loews Hotel, Philadelphia, PA*

**Maureen Y. Lichtveld, MD, MPH**

Associate Director for Workforce Development  
Director, Workforce Planning and Policy, PHPPPO, CDC

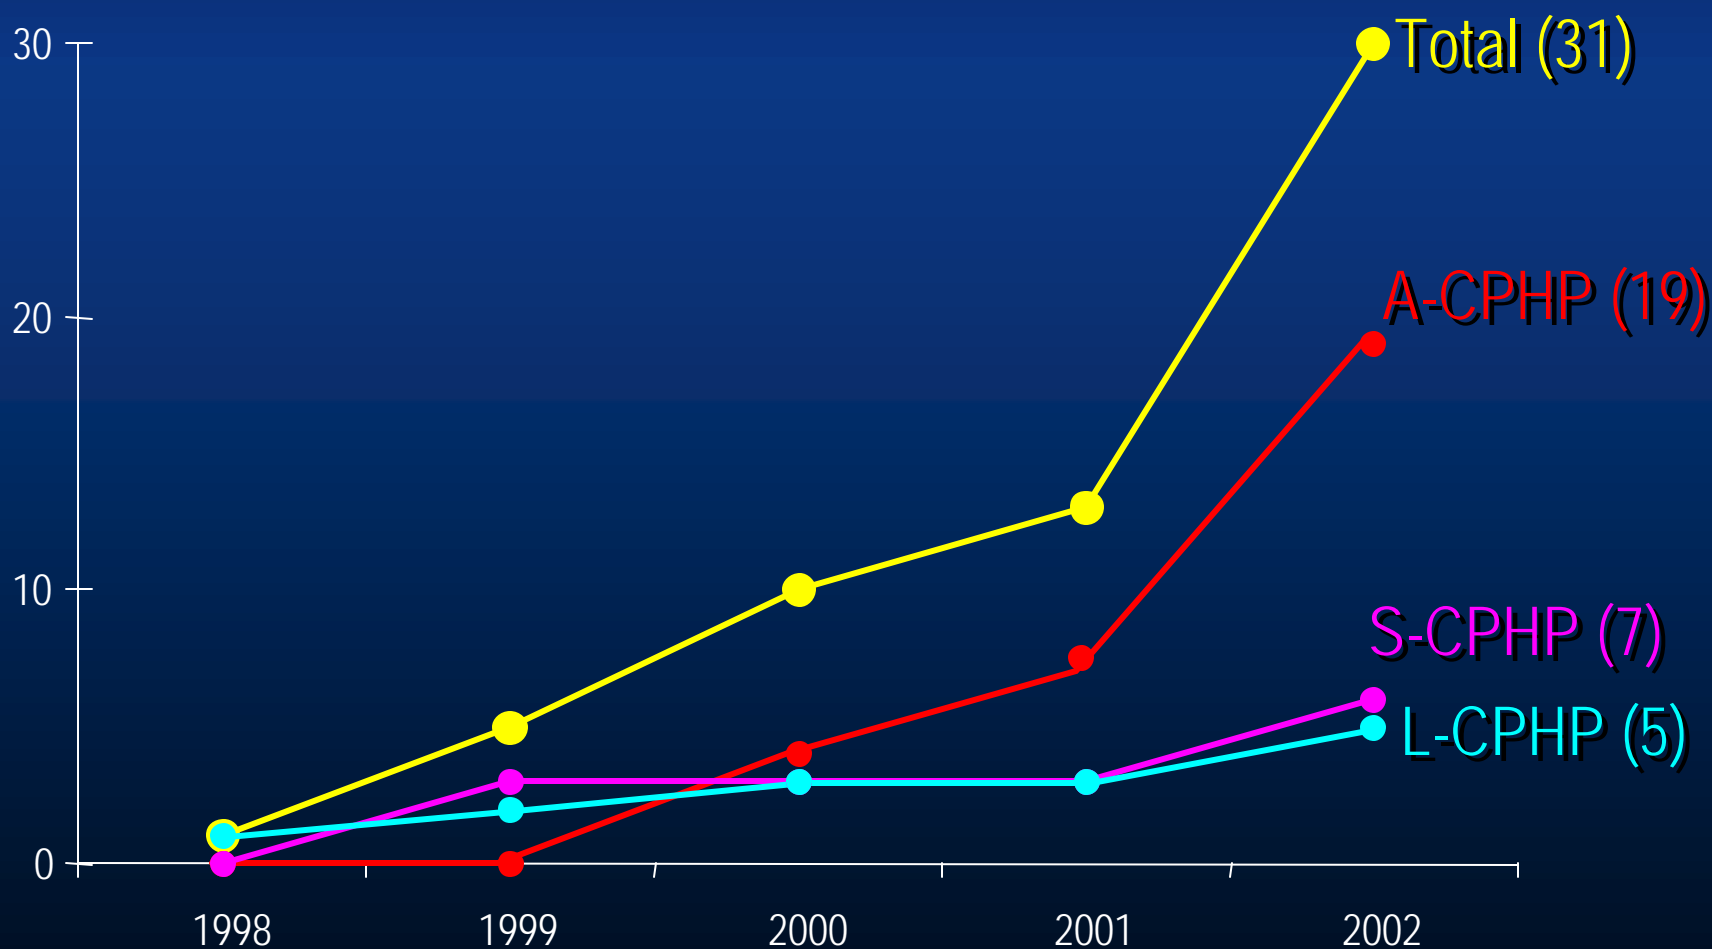

# CDC Implementation and Evaluation

- Bioterrorism (BT) Preparedness and Response Program Cooperative Agreement – Implementation
- Training Matrix -Terrorism Preparedness and Response training plan for the External Public Health Workforce
- Evaluation Framework
- Specific training efforts/products

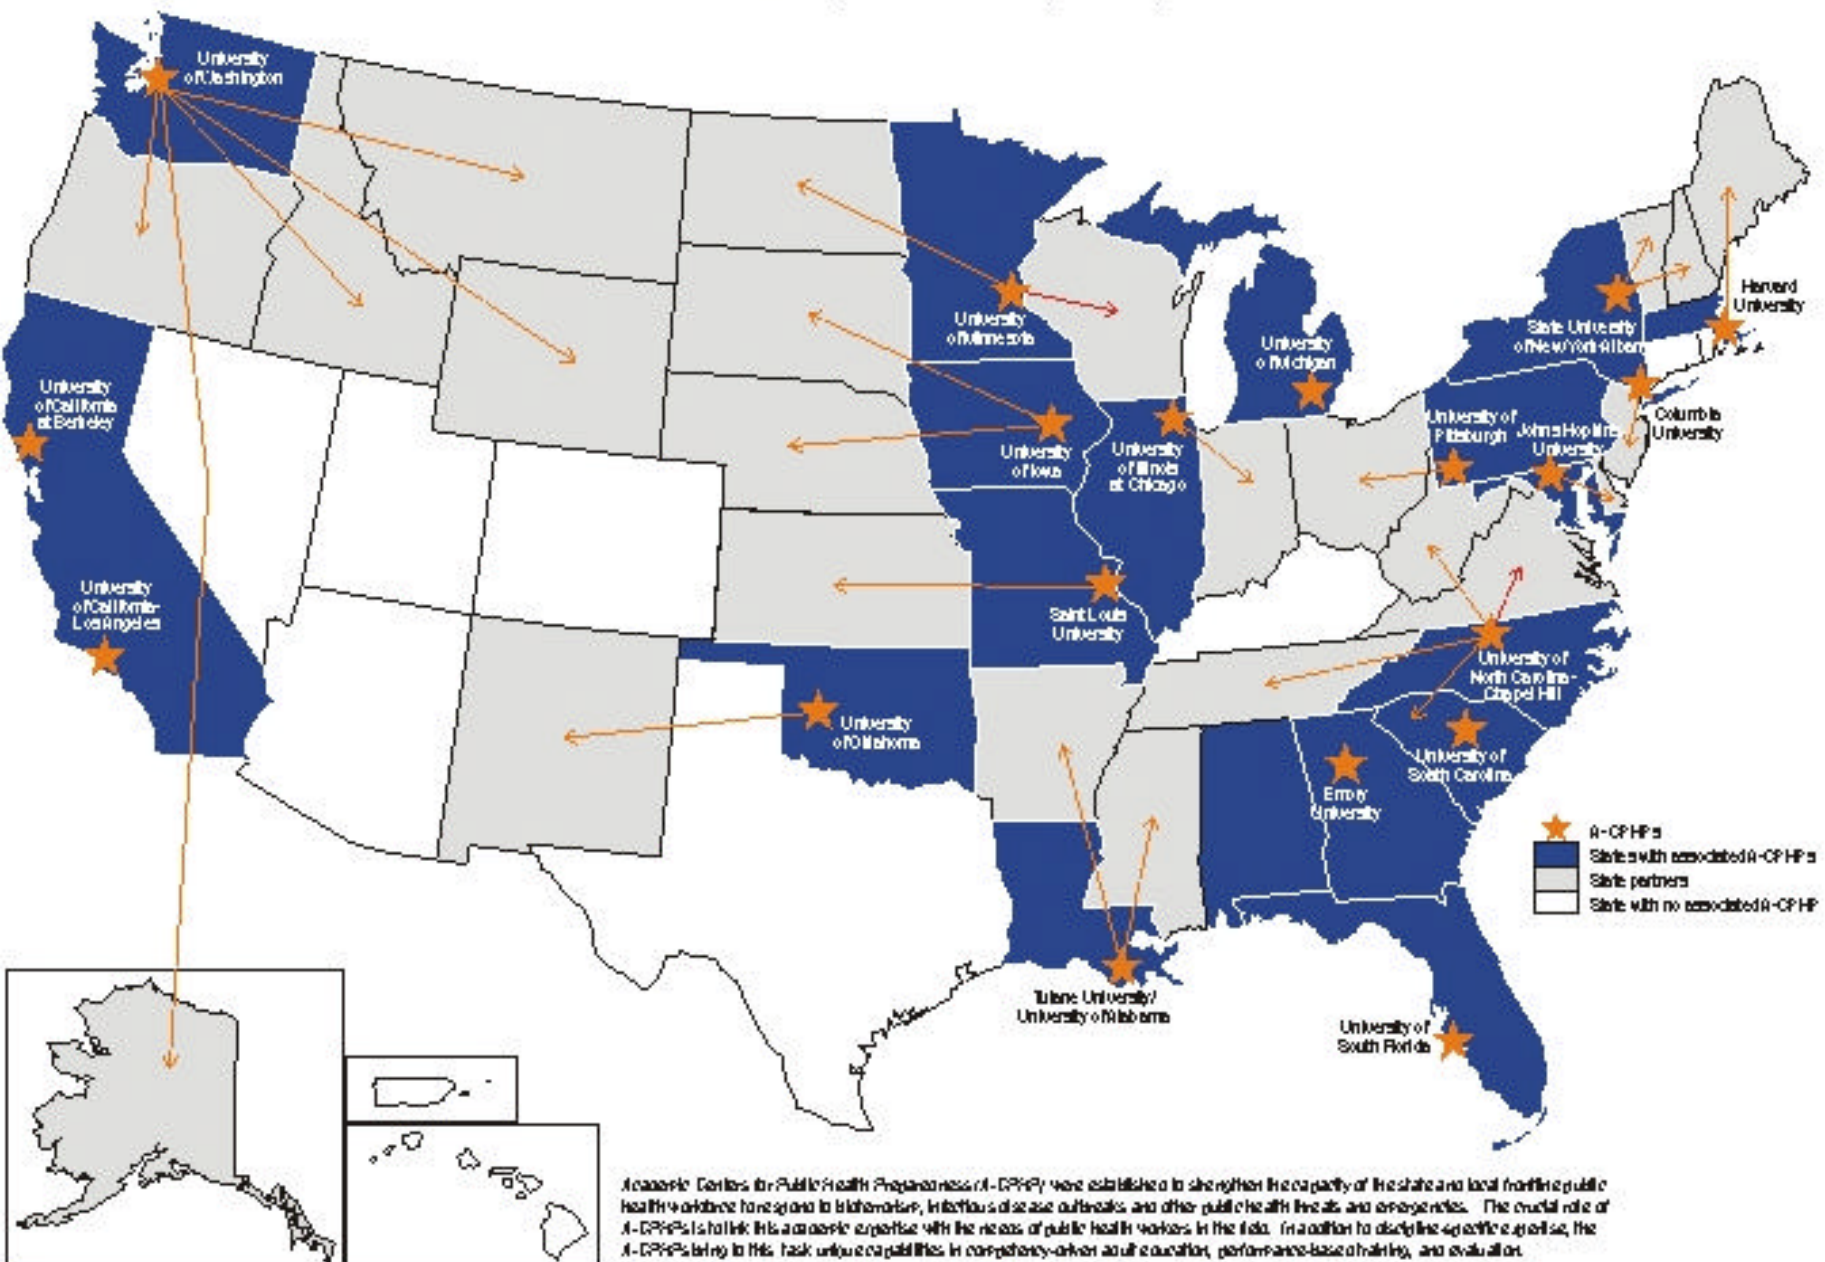

# Focus Area G - update

- Focus G leads identified
- Work plan analysis
  - FTEs
  - Capacity
  - Priorities
  - Partnerships
- Technical consultation – site visits; conf. calls; regional workshops

# CPHP Growth at a Glance....

# CENTERS FOR PUBLIC HEALTH PREPAREDNESS (CPHP) ACADEMIC CENTERS

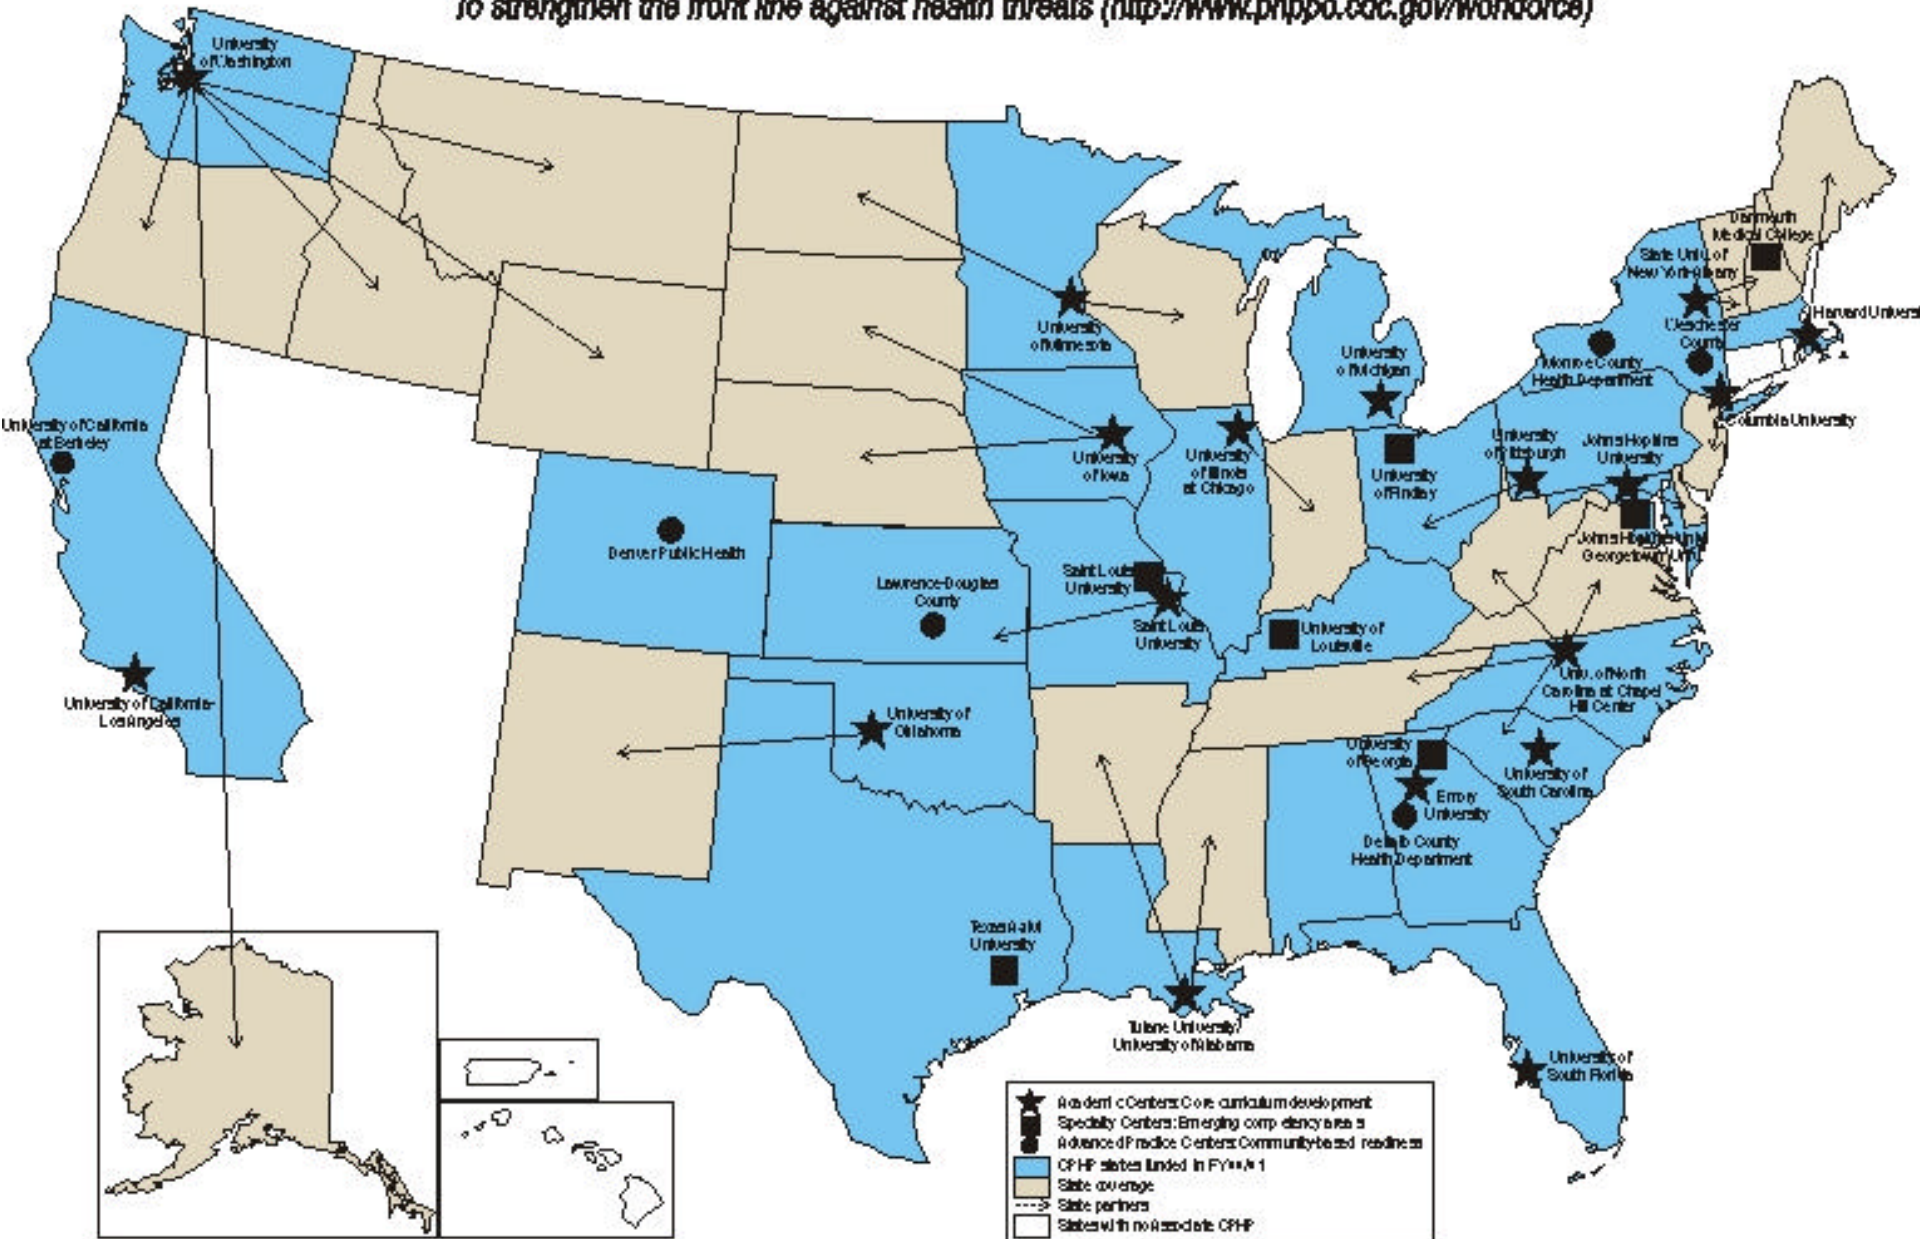

Academic Centers for Public Health Preparedness (A-CPHPs) were established to strengthen the capacity of the state and local frontline public health workforce to respond to bioterrorism, infectious disease outbreaks and other public health threats and emergencies. The crucial role of A-CPHPs is to link this academic expertise with the needs of public health workers in the field. In addition to discipline-specific expertise, the A-CPHPs bring to this task unique capabilities in competency-driven adult education, performance-based training, and evaluation.

## CENTERS FOR PUBLIC HEALTH PREPAREDNESS (CPHP)

**To strengthen the front line against health threats (<http://www.phppo.cdc.gov/worldforce>)**

# ***Terrorism Preparedness and Response Training Matrix***

# Guiding Principles\*

- Competency-based
- Performance - driven
- Governmental public health workforce
- Individual and agency competency

\* Developed in collaboration with state, local and academic partners  
(October 21, 2002)

# Terrorism Preparedness and Response Training Matrix

- CDC anticipated outcomes in the next 6 months
  - Training products database of federal, state and local health training efforts
  - Toolbox of learning offerings
  - Direct training for key state and local BT health officials

# Key Training Content Areas

- Biological/chemical agents-diagnosis, treatment, consequences
- Unified and incident command systems
- Communications/notifications systems
- Risk communications
- Worker safety
- Legal authorities
- Epi/surveillance; laboratory systems
- Information technology
- Psycho-social consequences

# CDC Products

- Incident Command System – Role of Public Health (CDC/FEMA/NACCHO)
- Crisis Emergency Risk Communications (NPHIC)
- Smallpox- Pre-event Vaccination; Diagnosis and Treatment
- National Pharmaceutical Stockpile – course and exercises

# Role of CPHPs

- Support local/regional education training needs
- Develop “products” for potential national use
- Strengthen the science base locally, regionally, and nationally

# Evaluation Context

- CDC – Program Evaluation and Accountability for BT Preparedness and Response State Cooperative Agreements
- State Perspective (ASTHO)
- CPHP-Program Evaluation and Accountability
  - ASPH – A-CPHP Framework
  - Specialty and Advance Practice - CPHP

# Key “Events”

- January 21-23: 3<sup>rd</sup> Annual Public Health Workforce Development Meeting
- February 11-13: Academic Partnering Mtg.
- February: Regional BT Workshops
- April: FY 03 Program Guidance
- June: Applications from the States
